5th America Digital

Latin American Congress of Business & Technology
May 13th - 14th, 2020 · Espacio Riesco, Santiago, Chile

Chile welcomes 22 countries on the most significant Business & Technology Congress in Latin America

The most important companies worldwide such as Google, Huawei, Telefónica, Oracle, among many others, star in more than **100 conferences and 2,000 business meetings** for the digital transformation of Latin America, valued over **100 billion dollars**.

This November 13th and 14th the most revolutionary and ambitious ideas of the technology market come out at the **5th America Digital Latin American Congress of Business and Technology**, on the Espacio Riesco Event Center in Santiago, where more than 5,000 C-level profiles, government authorities and decision makers of the 1,000 most influential companies in digital transformation congregate.

Business delegations from 22 countries including: **Mexico, USA, China, India, Argentina, Brazil, Chile, Colombia** display in a **10,000 m²** technology environment with more than **200 stands**. The leaders have the unique opportunity to participate in the Business Roundtable and hold more meetings in a day than in a whole year of travel, arranging effective solutions in favor of the quality of life, the profitability of the industries and the growth of the region.

More information at www.americadigital.com
